

Here we explain Configure gmail account to be able to receive emails from automation scripts.

Step [1] :

Click on the following link to Enable Less Secure Apps

<https://myaccount.google.com/lesssecureapps?pli=1>

Step [2]:

Click on Allow Less Secure Apps to enable the feature.

Step [3] :

From below image consider the information to define variables to setup SMTP Server for automating scripts

Example:

```
smtpserver='smtp.gmail.com'
```

```
port=587
```

- Server: **smtp.gmail.com**
- Encryption/Authentication: **SSL**
- Port: **465**

or

- Server: **smtp.gmail.com**
- Encryption/Authentication: **StartTLS**
- Port: **587**

Turn off 2-Step Verification:

- Your account is more secure when you need a password and a verification code to sign in.
- If you remove this extra layer of security, you will only be asked for a password when you sign in.

Follow the below steps to turn off 2-Step Verification:

- Open your [Google Account](#)

Welcome, [Name]

Control, protect, and secure your account, all in one place

Your Google Account gives you quick access to settings and tools that let you safeguard your data, protect your privacy, and decide how your information can make Google services work better for you.

<p> Sign-in & security ></p>	<p> Personal info & privacy ></p>	<p> Account preferences ></p>
<p>Control your password and Google Account access.</p> <p>Signing in to Google Device activity & security events Apps with account access</p>	<p>Manage your visibility settings and the data we use to personalize your experience.</p> <p>Your personal info Contacts Manage your Google activity Ad Settings Control your content</p>	<p>Adjust account settings, like payment methods, languages, & storage options.</p> <p>Payments Purchases, subscriptions & reservations Language & Input Tools Accessibility Your Google Drive storage Delete your account or services</p>
<p> Security Checkup Protect your account in just a few minutes by reviewing your security settings and activity GET STARTED</p>	<p> Privacy Checkup Take this quick checkup to review important privacy settings and adjust</p>	

- In the "Sign in & security" section, select **2-Step Verification**. You might need to sign in.

- Select **Turn off**.

- A pop-up window will appear to confirm that you want to turn off 2-Step Verification. Select **Turn off**.
