Here we explain Configure gmail account to be able to receive emails from automation scripts. Step [1] :

Click on the following link to Enanle Less Secure Apps https://myaccount.google.com/lesssecureapps?pli=1

Step [2]:

Click on Allow Less Secure Apps to enable the feature.

÷	Less secure apps		
	Some apps and devices use less secure sign-in technology, which makes your account more vulnerable. You can turn off access for these apps, which we recommend, or turn on access if you want to use them despite the risks. Learn more

Step [3] :

From below image consider the information to define variables to setup SMTP Server for automating scripts

Example: smtpserver='smtp.gmail.com' port=587

- Server: smtp.gmail.com
- Encryption/Authentication: SSL
- Port: 465

or

- Server: smtp.gmail.com
- Encryption/Authentication: StartTLS
- Port: 587

Turn off 2-Step Verification:

- Your account is more secure when you need a password and a verification code to sign in.
- If you remove this extra layer of security, you will only be asked for a password when you sign in.

Follow the below steps to turn off 2-Step Verification:
