

Open Endpoint Manager > Click 'Settings' > 'Portal Set-Up' > 'Client Settings' > 'macOS / iOS'

- You need to install an Apple Push Notification (APN) certificate on your Endpoint Manager portal in order to communicate with iOS and Mac devices.
- You can enroll for an APN certificate using your Apple account. If you do not have an Apple account then please create one at <https://appleid.apple.com>. A free account is enough.
- The certificate is valid for one year. EM will remind you when your certificate is nearing expiry. It is free to renew the certificate each year
- Please follow the steps below to obtain and implement an APN certificate:

Step 1- Generate your PLIST

- Login to 'ITarian'
- Click 'Applications' > Endpoint Manager
- Click 'Settings' > 'Portal Set-Up' > 'Client Settings'
- Click the 'macOS / iOS' tab

- Click the 'Create APNs Certificate' button to open the APNs application form

The fields on this form are for generating a Certificate Signing Request (CSR):

Generation of APNs Certificate ✕

Country name *

Apple ID *

State or province name *

Locality name (e.g, city) *

Organization name *

Organizational unit *

Organizational Unit Name (e.g, section)

Common name *

(e.g., server FQDN or YOUR name)

- Complete all fields marked with an asterisk and click 'Create'.
- This will send a request to Comodo to sign the CSR and generate an Apple PLIST.
- You will need to submit this to Apple in order to obtain your APN certificate.
- Usually your request will be fulfilled within seconds and you will be taken to a page which allows you to download the PLIST:

To get the certificate for communication between server and Apple devices you need to:

1. Download: [The Apple PLIST Signed by Comodo](#)
2. Login to the [Apple Push Certificate Portal](#) with your regular Apple ID (free account is enough).
3. Upload the PLIST from step 1 to the Apple portal. Apple will use this to generate your certificate.
4. Download your certificate from Apple. It will be in .PEM format.
5. Click 'Browse', select your certificate, and click 'Save' to upload it to ITSM

Select .PEM file

Browse

- Download your Apple PLIST from the link in step 1 on this screen. This will be a file with a name similar to 'COMODO_Apple_CSR.csr'. Please save this to your local drive.

Step 2 -Obtain Your Certificate From Apple

- Login to the 'Apple Push Certificates Portal' with your Apple ID at <https://identity.apple.com/pushcert/>.
- Once logged in, click 'Create a Certificate'.

You will need to agree to Apple's EULA to proceed.

Terms of Use

PLEASE READ THE FOLLOWING LICENSE AGREEMENT TERMS AND CONDITIONS CAREFULLY BEFORE DOWNLOADING OR USING THE APPLE CERTIFICATES. THESE TERMS AND CONDITIONS CONSTITUTE A LEGAL AGREEMENT BETWEEN YOUR COMPANY/ORGANIZATION AND APPLE.

MDM Certificate Agreement
(for companies deploying mobile device management for iOS and/or OS X products)

Purpose

Your company, organization or educational institution would like to use the MDM Certificates (as defined below) to enable You to either deploy a third-party commercial, enterprise server software product for mobile device management of iOS and/or OS X products, or deploy Your own internal mobile device management for iOS and/or OS X products within Your company, organization or educational institution. Apple is willing to grant You a limited license to use the MDM Certificates as permitted herein on the terms and conditions set forth in this Agreement.

1. Accepting this Agreement; Definitions

1.1 Acceptance

In order to use the MDM Certificates and related services, You must first agree to this License Agreement. If You do not or cannot agree to this License Agreement, You are not permitted to use the MDM Certificates or related services. Do not download or use the MDM Certificates or any related services in that case.

You accept and agree to the terms of this License Agreement on Your company's, organization's, educational

I have read and agree to these terms and conditions.

MDM_COMODO GROUP LTD._Certifica...

Browse

- Click 'Save' to upload your certificate.

The APNs Certificate details interface opens:

Endpoint Manager can now communicate with iOS and Mac OS devices. You can enroll iOS devices and Mac OS devices for management.

- The certificate is valid for 365 days. EM will remind you when your certificate is due to expire.
- We advise you renew your certificate at least 1 week before expiry. If it is allowed to expire, you will need to re-enroll all your iOS and Mac devices.
- Click 'Renew' in the APNs certificate details interface to renew the cert.
