

The user can change the password for the user account in the ITarian portal.

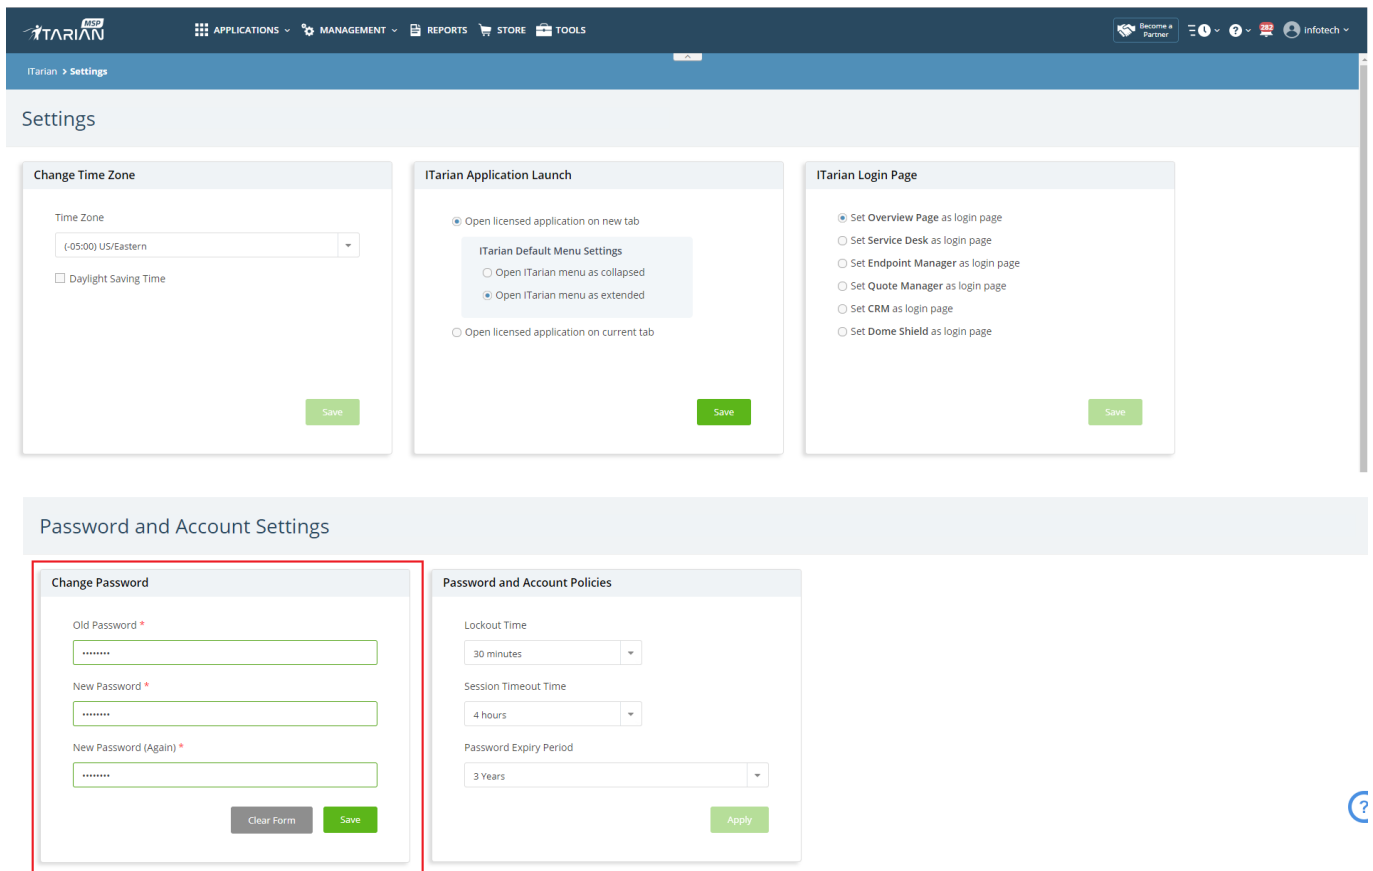

Step 1: Login to the <https://one.comodo.com/app/login> with the username and password. Click the down arrow at the top right corner of ITarian portal and select the **"Settings"**.

Step 2: Enter the **Old Password**, **New Password** and **New Password (Again)** and click the **"Save"** button.

Old Password: Provide the old password for the user account.

New Password: Provide the new password that need to be changed for the user account.

Step 3: An Alert prompt appears stating that "Your password is changed successfully". Click "**OK**".
