

This feature allows admin to filter the notifications generated in Endpoint Manager as per their need. Please refer below steps to use it effectively.

Step 1: Go to **Endpoint Manager**→**DASHBOARD** → **Notifications** to see all the notifications generated in Endpoint Manager.

Step 2: Click "Table filter" as shown below. The notifications can be filtered using their Type or Message or Received Date.

Step [3]: Filtering options

a) Types - There are five types available in the filtering options. They are explained as below

i)Success - This type will list all the successful activities of **Endpoint Manager** and it is notified by a green tick mark.

ii)Warning - If any warning event occurs in Endpoint Manager, in notification bar it is notified by a yellow color mark.

iii) Error - If an error is received, it is notified by a red alert mark.

iv) Blocker - When a blocker is found out by the Endpoint Manager, it is notified by the yellow color in the

notifications.

v)Support - If any support is provided from Endpoint Manager, it is notified by the yellow color mark.

b) Message

Type the Message to filter the appropriate notifications as shown below.

c) Received

Type the **Start date** and **End date** to filter notifications from a particular period of their Received time.

For Example, A sample filter is given below.

The screenshot shows the 'Endpoint Manager' interface with the 'Notifications' section active. The left sidebar contains navigation options like Dashboard, Audit, Devices, Users, etc. The main area displays a list of notifications with columns for 'TYPE' and 'MESSAGE'. A filter panel on the right is open, showing the 'Type' filter set to 'Success', the 'Message' filter set to 'report', and the 'Received' date range set to '2018/06/25' to '2018/06/28'. The notification list is filtered to show only 'Success' type messages related to report saving.

TYPE	MESSAGE
Success	The new report has been saved as «Default Profiles 2018-06-28 11-02 AM.csv»
Success	DESKTOP-062PCLS: package «COMODO Client - Security v. 10.7.0.6851» was successfully installed
Success	Star-Briyani: package «COMODO Client - Security v. 10.7.0.6851» was successfully installed
Success	The new report has been saved as «Device List 2018-06-27 09-46 AM.csv»
Success	The new report has been saved as «Device List 2018-06-27 09-22 AM.csv»
Success	wakanda: package «COMODO Client - Security v. 10.7.0.6845» was successfully installed
Success	The new report has been saved as «Device List 2018-06-26 05-40 PM.csv»
Success	The new report has been saved as «Device List 2018-06-26 05-37 PM.csv»
Warning	Connection to Comodo Account Management server for checking the licenses can not be established! IT and Security Manager Portal will stop working in 3 days.
Success	The new report has been saved as «Device List 2018-06-26 05-16 PM.csv»
Success	The new report has been saved as «Device List 2018-06-26 05-15 PM.csv»
Success	The new report has been saved as «Device List 2018-06-26 04-53 PM.csv»
Success	The new report has been saved as «Device List 2018-06-26 04-52 PM.csv»
Success	Star-Briyani: package «COMODO Client - Security v. 10.7.0.6845» was successfully installed

After applying a filter, it will list the filtered notifications.

This screenshot shows the same 'Endpoint Manager' interface, but the filter panel is closed. The notification list now only displays the filtered results, which are all 'Success' type messages related to report saving. A red box highlights the first seven rows of the filtered list. The 'Results per page' dropdown is set to 20, and the page shows 'Displaying 1-10 of 10 results'.
