

Google Drive and One drive is a cloud storage that allows users to store files on their servers and share the files. The uploaded file can be directly downloaded from the internet using the direct download link. The direct download link is used to describe a hyperlink that points to a location within the Internet where the user can download the file. The process of uploading a file in a drive and to generate a direct download link are instructed below

### i) To get the Direct Download link from Google Drive

**Step[1]:** Sign in to Google Drive. After signing in select **My Drive** → click "**Upload files** " from the drop-down list and select the file to be uploaded to the drive. After the successful upload of the file a popup box occurs stating that "**upload complete**".

**Step[2]:** Now you can view the uploaded file in the drive, right-click it and choose the "**Share**" option. This will generate a shareable link. To copy the link Click "**Copy link**" button.

**Step[3]:** Go to the Google Drive Direct Link Generation by using this link <https://sites.google.com/site/gdocs2direct/> and Paste the copied shareable link in the "Enter Your sharing URL" box and click "Create Direct Link". At this moment you can see the direct download link in the "Output link" box.

## Google Drive Direct Link Generator

### Home

Enter your sharing URL:

<https://drive.google.com/file/d/1uQX-aaL9f4VOahi6cn8QiDeAS4TOCFyH/view?usp=sharing>

Create Direct Link

→ Click here to get Direct Download link

Output link:

<https://drive.google.com/uc?export=download&id=1uQX-aaL9f4VOahi6cn8QiDeA>

→ Direct Download Link

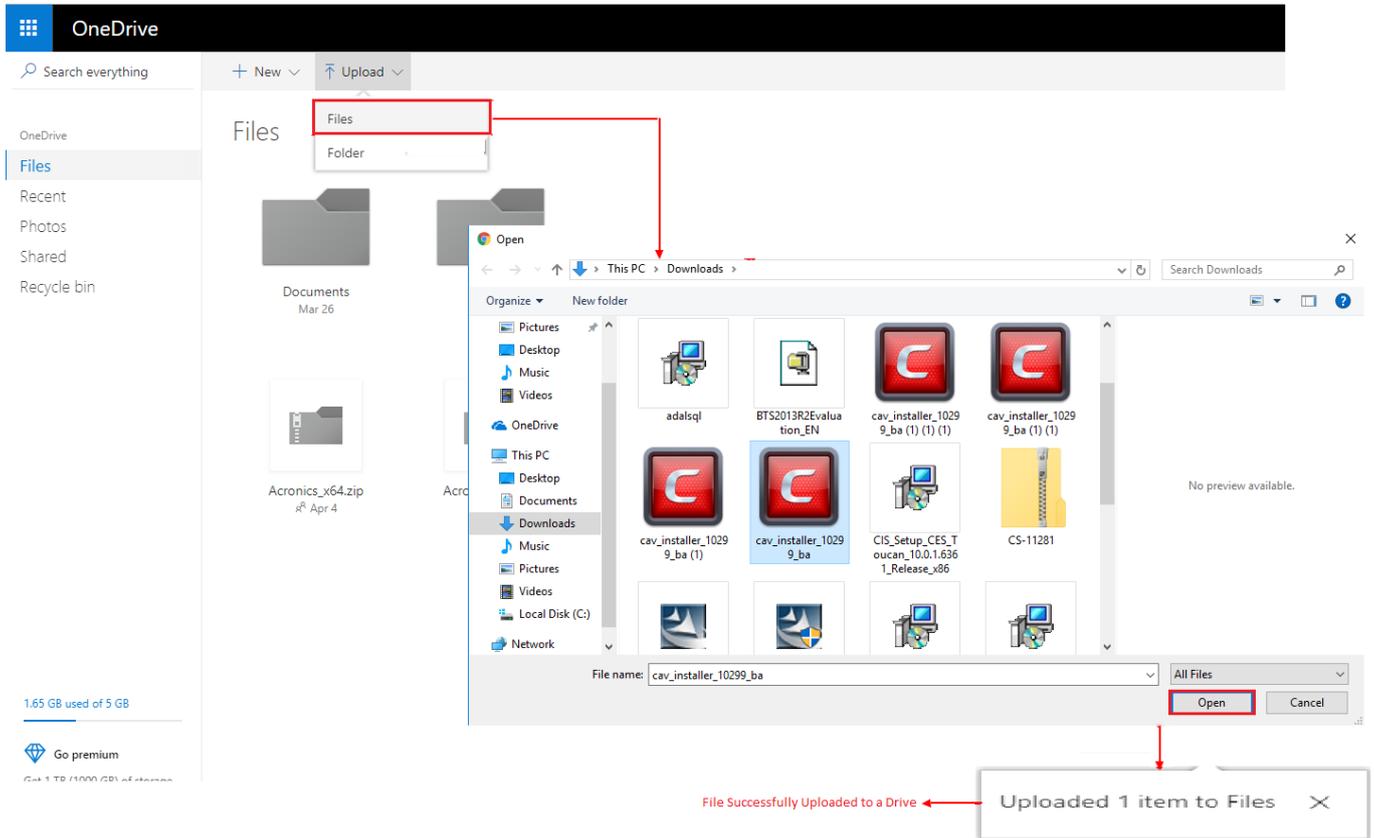

**Tip:** Click the output text, then press **Ctrl+A**, followed by **Ctrl+C** to copy it to your clipboard (Cmd+A and Cmd+C on a mac)

**NOTE**

This will only work for files that you **UPLOAD** to Google Drive. It will not work for documents, presentations, etc. created inside Google Drive. If you want to create a direct link to those, first download them to your computer then upload that file back on to Google Drive.

## ii) To get the Direct Download link from One Drive

**Step[1]:** Sign in to One Drive. After signing in Go to **Files** → **Upload** → **Files** and select the file to be uploaded in a drive. After the successful upload of the file a popup box occurs at the top right corner stating that "Uploaded items to Files".

**Step[2]:** Now the uploaded file will be in the drive, right-click that file and click "**Embed**" option. This will generate an "**Embed link**" in the right corner. We have to **copy the link**.

The screenshot shows the OneDrive web interface. At the top, there is a search bar and a toolbar with options: Share, Download, Delete, Move to, Copy to, Rename, Embed, and Version history. The left sidebar shows navigation options: OneDrive, Files (selected), Recent, Photos, Shared, and Recycle bin. The main area displays a 'Files' view with folders for Documents and Pictures, both dated Mar 26. A file named 'cav\_installer\_1029' is selected, and a context menu is open over it. The 'Embed' option in the menu is highlighted with a red box. A red arrow points from this 'Embed' option to a red-bordered box containing the following HTML code:

```
<iframe src="https://onedrive.live.com/embed?cid=A910C8EF113350FB&resid=A910C8EF113350FB%21117&authkey=AEBu1kUXhustXHE" width="98" height="120" frameborder="0" scrolling="no"></iframe>
```

Another red arrow points from the text 'Copy this Embedded link' to the embed code box. Below the code box, there is a note: 'Note: Anyone who visits the blog or webpage with this embedded file will be able to view it without signing in.'

**Step[3]:** Finally go to this

link <http://metadataconsulting.blogspot.in/2014/05/how-to-get-direct-download-link-from.html> and Paste the copied embedded link in the first box and click "**Get embed link**" button. This will automatically generate the File Embed link in the second box. At last click, the "**Get Download Link**" option and thus the direct download link will get generated. You can view the direct download link in the third box.

**1. Get Embed code** from Onedrive as in picture above. i.e.: `<iframe src="https://onedrive.live.com/embed?cid=8F99649728BEB2F3&resid=8F99649728BEB2F3%211010&authkey=AFo8ZQ_-qj84DEQ" width="98" height="120" frameborder="0" scrolling="no"></iframe>` see instructions below, if you don't know how. **NOTE** : For **images** there an extra step below.
