

- The security dashboard is a list of all security events on managed Windows endpoints. An event is created when a security module takes an action on a file. For example, the antivirus module blocks a suspicious file, or the containment module runs an unknown file in the container.
- The dashboard lets you view events by event date, by file name, or by device. You can also view a Valkyrie report on the file featured in the event.
- Valkyrie is a file analysis service that tests files with a range of static and behavioral checks. The service helps Comodo establish whether an unknown file is malicious or safe.
- This article explains how to view Valkyrie reports on files which created a security event.

Open the security dashboard

- Open Endpoint Manager
- Click 'Security Sub-Systems' > 'Security Dashboards'
- You can view events by event time, by file name, or by device:

The screenshot shows the security dashboard interface. At the top, there are tabs for 'Event View', 'File View', and 'Device View'. Below these are several action buttons: 'Action on Endpoint', 'Change Rating', 'File Details', 'Download Valkyrie Report', 'Check Valkyrie Details' (circled in red), and 'Export'. A search bar for 'file HASH' is present. Below the search bar is a table of events with columns: DATE TIME, COMPONENTS, ACTION, OS, DEVICE NAME, FILE NAME, FILE PATH, FILE HASH, INITIAL COMODO RATING, and CURRENT COMODO RATING. One event is highlighted with a red circle: 2019/10/29 10:01:11 AM, Containment, Run virtually, UxWin10x64..., iexplore.exe, C:\Prog..., 5D5586..., Unrecognized, Unrecognized.

Below the table, the 'Check Valkyrie Details' button is clicked, opening a detailed analysis page. The page has a red header with the 'VALKYRIE' logo and a sidebar with 'DASHBOARD', 'STATISTICS', and 'SETTINGS'. The main content area shows a 'Summary' tab selected, with a large green checkmark icon and the text 'CLEAN Valkyrie Final Verdict'. To the right, there is a detailed report for the file '2018-11-20 14:05:51.339019'. The report includes the following information:

- File Name: 2018-11-20 14:05:51.339019
- File Type: PE32 executable (console) Intel 80386 Mono/.Net assembly, for MS Windows
- SHA1: 1f2d314337132a1f2fadfbd141a5897e1a976571
- MD5:
- First Seen Date: 2018-11-30 16:19:51 (2 month(s) 8 day(s) ago)
- Number of Clients Seen: 4
- Last Analysis Date: 2018-11-30 16:19:51 (2 month(s) 8 day(s) ago)
- Human Expert Analysis Result: No human expert analysis verdict given to this sample yet.
- Verdict Source: Signature Based Detection

- Select the event which interests you
- Click the 'Check Valkyrie Details' button
- The Valkyrie analysis opens in a new page. The page contains the results of each test, and a trust verdict from each test.
